- Download the Reference Final Output Page PDF ([click here](#) ↓ ([https://dlsu.instructure.com/courses/89961/files/8553203/download?download\\_frd=1](https://dlsu.instructure.com/courses/89961/files/8553203/download?download_frd=1)) )

### Instructions

- The HTML and CSS styles are completely given
- You may **NOT** change any lines in the HTML file, but you may (and should) add the jQuery call
- You may **NOT** change any lines in the CSS file.
- Edit the JS file as you see fit
- The JS starter code contains initial functions and comments to guide you. You may change functions in it completely
- The feature to Switch Users and to show or hide the Filter Drop-down is already given
- There may be more than one solution to this activity

### Submission Details

- Upload your submission as a ZIP file following the naming format
- The index.html file should work as you intended upon extracting your submission and opening it

### Final Page Output

- Post the entries found in Posts.txt, following the title, content, user who posted it, and the date & time it was posted
- If you implemented the bonus Messenger feature, send the entries found in Messages.txt as well

### Notes

- This is **NOT** a required submission, but submit your output if you want to practice or you have questions about certain functionalities.
- For questions, corrections, or clarifications, feel free to send me a message.
